SECTION 6 - of Town of Guilford Local Law No. 1 of 1973 passed by Guilford Town Board on May 9, 1973 is Amended to read as follows:

SECTION 6 - DESIGN STANDARDS

(a) The design, plan, construction and installation of any septic tank, dry well, leeching pit, chemical toilet, privy, pipe or other means for the disposal or discharge of sewerage, sink wastes, or other liquid wastes, shall substantially comply with the orders, rules, regulations, bulletins and recommended standards of the New York State Department of Health and shall promote a sanitary, safe and healthful atmosphere for the Town of Guilford and its residents.

(b) In a special flood hazard area a new or replacement water supply system and/or sanitary sewerage system, or the design, plan, construction and installation of any septic tank, dry well, leeching pit, chemical toilet, privy, pipe or other means for the disposal or discharge of sewerage, sink wastes, or other liquid wastes, shall also minimize or eliminate infiltration of flood waters into the systems and discharges from the system into flood waters and require on-site waste disposal systems to be located so as to avoid impairment of them, or contamination of them during flooding. Special flood hazard area means that maximum area in the Town of Guilford of the flood plain that on the average is likely to be flooded once every 100 years (i.e., that has a 1% chance of being flooded each year - 100 year flood) and is delineated on the flood hazard boundary maps issued by the Federal Insurance Administration, Department of Housing and Urban Development, now or hereafter issued and filed with the Guilford Town Clerk.

(c) The Town Board may grant a variance from the provisions of this Section.
